Sequence of Events:

On 5/29/20- SRT 2 was contacted and asked to prepare to deploy to protect DOJ Assets from the violent civil unrest taking place in Washington, DC. Further guidance was later provided that SRT 2 would be deploying to the Main Justice building on the morning of 5/30/20.

On 5/30/20, @ 1000, advance personnel arrived at the Washington Field Division to coordinate the operation. In addition, at approximately 1030, advance personnel arrived at the Main DOJ building to coordinate the arrival of the remainder of the team.

At 1145, all SRT personnel and vehicles were in place at the Main Justice building (b)(7)(E) personnel total).

Coordination/deconfliction meetings took place with the additional LE assets at the building (USMS SOG, ATF Field Agents, FPS Officers, USBOP Cell Extraction Teams).

SRT was briefed on their mission (perform rescue operations as needed of any LE officers outside of the Main Justice Building) and staged inside the courtyard.

At approximately 1200, SRT deployed an FO in conjunction with an FO from the USMS SOG. Both FOs were deployed in covert positions that allowed them to provide live intelligence on any threats approaching the Main Justice Building. They were also capable of providing protection to the SRT if the team was required to deploy out of the building.

At approximately 1600, the FO team was recalled (the large demonstration had moved to the White House). SRT was then asked to re-deploy the team to the White House to assist the USPP and USSS.

Upon arrival, USSS Uniform Division asked SRT to provide chemical agents to their CDU officers in vicinity of a large protest in the NW corner of the White House grounds. SRT personnel deployed to the site, but did not provide and chemical agents as MPD and Park Police units were now on site to assist.

SRT was then assigned to provide direct support to the USSS Counter Assault Team (CAT) to assist with securing the SE, SW and South sides of the White House complex (Sherman Park, The Elipse and 1st Division Park). SRT personnel were paired with a CAT Liaison Officer (LNO) and deployed numerous times as needed to these areas with LL/CHEM and K9 capabilities.

SRT was released by the USSS at approximately 0300 hours.
